AMERIKKKA is a white supremacist settler colony, a prison house of nations who have always struggled vehemently and violently for self determination. This is stolen land.

As ~~rhodesia~~ became Zimbabwe, as ~~israel~~ cannot snuff out the flame of proud Palestine, so called "florida" will also fail, shatter, and be reborn.

Empires fall, and colonial names change, this is inevitable.

JEWELL

what it is,
and how it was lost.

(stop calling this place "~~lake worth~~")

The town we are currently in was not always called “lake worth beach.” Before it was named after the **genocidal**, **white supremacist**, **ethnic cleanser** ‘general william j. worth’ (a name unworthy of capitalization), it was known as the community of *Jewell;* a sanctuary for Afrikans who had escaped slavery, and Indigenous peoples fleeing the settler violence that charcterized the expansion of **amerikkka** from it’s foundation to the present day.

Jewell was founded by ***Fannie James***, a ***formerly enslaved Afrikan woman*** who personally established a pineapple farm and community post office on land that was stewarded at various points by the ***Yat'siminoli (Seminole), Taíno, Tequesta, Miccosukee and Mascogo Nations.***

Although white historians will have you believe that the area was a bastion of post-racial harmony and love, it was and ***continues to be*** a land soaked in the blood of victims from lynchings to widespread genocides and ethnic cleansing campaigns. Fannie herself would be publicly murdered on her way to a bank when she refused to avoid the town center after it was stolen and segregated by the illegitimate Tallahassee government. The white settlers did not see fit to investigate her death, and the history of ***Jewell*** was, until recently, swept away. Help us preserve this history by calling this place ***Jewell,*** and refusing the false title.
